PROFESSIONAL SUMMARY

Electrical & Electronics Engineering undergraduate at Chuka University with practical field experience in industrial electrical installation, power distribution, switchgear maintenance, and system troubleshooting. Proficient in AutoCAD, embedded hardware prototyping, and AI-assisted programming. Proven ability to adapt quickly to high-demand environments and collaborate effectively across technical teams.

EDUCATION

Chuka University <i>Bachelor of Science in Electrical & Electronics Engineering</i>	2024 – 2029 (Expected) Chuka, Kenya
Texas Training College <i>Certificate in Microsoft Office Suite (Distinction)</i>	Jan 2024 – Mar 2024 Kenya
Kagumo High School <i>Kenya Certificate of Secondary Education (KCSE) — Grade: B+</i>	2020 – 2023 Nyeri, Kenya

ENGINEERING EXPERIENCE

Spenza Limited <i>Engineering Industrial Attachment</i>	May 12, 2026 – July 12, 2026 Kenya
Power & Wiring Installations: Executed domestic and industrial wiring operations, including office conduit piping, cable laying, pulling, and gland termination. Grounding Systems: Designed, constructed, and tested low-resistance earth pits and earthing grounding meshes for site safety compliance. Maintenance & Diagnostics: Conducted routine preventative maintenance, motor diagnostics, oiling, and cleaning of complex electro-mechanical machinery. Troubleshooting & Repairs: Assisted senior breakdown crews in rapid fault diagnosis, panel rewiring, and repair of critical production systems. Team Collaboration & Safety: Partnered with cross-functional mechanical and electrical teams to ensure precise site coordination, strict safety compliance, and uninterrupted operation under tight daily schedules.	

TECHNICAL & PROFESSIONAL SKILLS

Electrical & Field:	Industrial & Domestic Wiring, Switchgear & Panel Wiring, Earthing/Grounding Systems, Motor Diagnostics, Electro-Mechanical Troubleshooting
CAD & Prototyping:	AutoCAD (Electrical Layouts), Arduino Hardware & Firmware Prototyping, Circuit Analysis
Software & Tools:	AI-Assisted Coding, Git & GitHub, Microsoft Office Suite
Core Competencies:	Cross-Functional Teamwork, Technical Communication, Site Punctuality, Operational Resilience

TECHNICAL PROJECTS & PERSONAL INTERESTS

- Embedded Systems Projects:** Designed and programmed custom micro-controller circuits using Arduino and C/C++ logic.
- Web Development & Software:** Built modular web interfaces and utilized GitHub for version control and repository management.
- Interests:** Karate (Martial Arts), Embedded Systems Design, Technical Literature, Music.
